

Exhibit B

'984 Patent

US9438984 B1 Claim 16	Amazon's AfterShokz
<p>16. A method of utilizing an ergonomic wearable electronic ear wear piece of enhanced comfort for long-term wear, the method comprising:</p>	<p>AfterShokz Sportz Titanium with Mic - Wired Open-Ear Bone Conduction Headphones with Microphone - Onyx Black - 4 ft Wire - 12 Hr Battery Life - 2 Hr Charge Time - Standard 3.5 mm Audio Jack (AS451XB)</p> <p>Visit the Aftershokz Store</p> <p>★★★★☆ 315 ratings 56 answered questions</p> <p>2022, Amazon.com, Inc. or its affiliates</p> <p><https://www.amazon.com/dp/B01N51R0GL></p> <p>Amazon's AfterShokz has a method of utilizing an ergonomic wearable electronic ear wear piece of enhanced comfort for long-term wear.</p> <p>The reference includes subject matter disclosed by the claims of the patent after the priority date.</p>

US9438984 B1 Claim 16	Amazon's AfterShokz
<p>at least partially securing the piece at a user's ear with at least one hook shaped securing extension being positioned at least partially behind the ear;</p>	 <p data-bbox="456 976 963 1003"><https://www.amazon.com/dp/B01N51R0GL></p> <p data-bbox="456 1029 1463 1079">The reference describes at least partially securing the piece at a user's ear with at least one hook shaped securing extension being positioned at least partially behind the ear.</p>

US9438984 B1 Claim 16	Amazon's AfterShokz
<p>manipulating an actuator at a front of the extension to electronically communicate with one of a plurality of electronic components in a casing coupling to the extension, the casing of a bulk exceeding that of the securing extension and a distancing element that provides the coupling and positions the casing at a location away from the ear and exclusively between the ear and a neckline of the user when the piece is secured; and</p>	 <p>Multifunction Button Tecla multifunções Кнопка управления Πλήκτρο πολλαπλών λειτουργιών 다기능버튼 マルチファンクションボタン 多功能键</p> <p><https://www.manualscat.com/en/aftershokz-aeropex-manual?p=6></p> <p>The reference describes manipulating an actuator at a front of the extension to electronically communicate with one of a plurality of electronic components in a casing coupling to the extension, the casing of a bulk exceeding that of the securing extension and a distancing element that provides the coupling and positions the casing at a location away from the ear and exclusively between the ear and a neckline of the user when the piece is secured.</p>

US9438984 B1 Claim 16	Amazon's AfterShokz
<p>delivering sound to the user's ear with a speaker assembly accommodated by the securing extension.</p>	 <p>The image shows a pair of black bone conduction headphones. A yellow rectangular box highlights the two earpieces, which are circular and feature a speaker grille. The headphones have a flexible, curved band that connects the earpieces. A cable extends from the right earpiece, ending in a control module with three buttons (power, play/pause, and volume) and a 3.5mm audio jack.</p> <p>https://www.amazon.com/dp/B01N51R0GL</p> <p>The reference describes delivering sound to the user's ear with a speaker assembly accommodated by the securing extension.</p>
